“To practice the process of conflict resolution, we must completely abandon the goal of getting people to do what we want.”

– Marshall B. Rosenberg

This 3-part panel discussion series is designed to equip HR professionals, organizational leaders and ADR service providers with effective strategies and tools to identify, understand, and mitigate power imbalances in workplace, family, and business/commercial disputes.

Participants will learn from, and engage in discussions with, highly experienced experts from a diverse array of dispute resolution sectors.
